The Genesis of Leadership вЂњThe BeginningвЂќ is the first book of the Leadership Principles and Proverbs Series. Principles and proverbs are very closely related, in that they both express truth. Principles are the essential truths and doctrines used to govern life. Proverbs are sayings that express a truth and often offer advice. This series offers many principles and proverbs that are meant to produce wisdom, knowledge, and understanding regarding some of the fundamental truths of leadership. People spend a vast amount of time reading about and studying the attributes of great world leaders, successful entrepreneurs, military leaders, and corporate executives. It is interesting and informative to study how these people accomplished great things, but I firmly believe that the Bible contains the greatest truths known to mankind. If you want to tap into the divine order of God, you must first know and understand Him, His Word, His will, and His ways. In the Book of Genesis, the book of beginnings, we find the origin of leadership. It is the first documented record of a leader functioning in leadership principles. God revealed powerful leadership principles to us in His Word and by His actions. There is no better example to follow!
